

# THE 6 DO'S

**Do honor the pickup timeline:** If you have opted for the complimentary transit, reporting time at the assembly point is exactly **06:00 AM**. The vehicle leaves at **06:45 AM** sharp, punctuality is non-negotiable.

**Do organize your essentials the night before:** Eliminate morning friction by having your attire and session materials laid out and ready. An elite anchor never rushes to an assembly point.

**Do use your question chit wisely:** Drop your question chit into the session fishbowl, and we will make every effort to answer almost all of your queries later during the Pajama Circle.

**Do use the provided luggage tags:** Our team will hand out name tags at the arrival point before departure. Make sure all your belongings are clearly labelled so we can handle them seamlessly.

**Do submit your phones before deployment:** All devices will be securely collected at the assembly point before sessions begin. For any urgent matters, ensure your family has our official emergency contact number Team Bol BB Bol: **+91 7666557259**.

**Do carry your prescribed medication (if applicable):** Ensure you are fully stocked with any personal prescriptions you might need before departure

# THE 9 DON'TS

1

**Don't miss the initial convoy departure:** The convoy leaves exactly at **06:45 AM**, and any delay will disrupt the Squad Arrival.

2

**Don't treat the buffer zones as free time:** The 15-minute buffers are built for logistical movement between sessions, not for extended breaks.

3

**Don't break character during themed blocks:** Maintain the required aesthetic protocol for designated events.

4

**Don't run late from the freshen up windows :** Ensure you are fully ready to deploy the moment the 45-minute refresh blocks conclude.

5

**Don't leave baggage operations for the last minute:** Your luggage must be out and keys surrendered before The Concluding Session begins on Day 3.

6

**Don't scatter before the retreat concludes:** Remain with the squad through the **12:00 PM** Final Sign-Off to ensure a unified and professional wrap.

7

**Don't leak the intel:** The Masterclasses and sessions are highly exclusive. No unauthorized recording, live-streaming, or posting of the internal modules.

8

**Don't carry restricted substances of any sort:** This is a zero-tolerance deployment. Alcohol, vapes, tobacco, and any similar consumption products in any form are strictly prohibited on the premises.

9

**Don't compromise the squad's safe space:** All attendees must commit to strict confidentiality. Never share, discuss, or leak the personal stories and professional vulnerabilities revealed by your peers during this intervention.
